

VASILII SKOVORODIN

Lead Frontend Engineer with 5+ years building and scaling SaaS products in FinTech/Web3 contexts using Vue/Nuxt and React with TypeScript. Owns frontend architecture and delivery end-to-end: performance, SSR/SEO, CI/CD, quality standards. Experienced in mentoring engineers, raising engineering bar via code reviews, and delivering measurable business impact. Commercial experience: SaaS delivery, cross-functional collaboration, CI/CD ownership, performance/SEO outcomes.

Leadership & Ownership

- Owned frontend architecture and technical direction for production platforms (build from scratch + legacy modernization).
- Drove delivery efficiency via CI/CD and release standardization (20m → 3m).
- Set quality bar via 50+ code reviews; mentored 2 engineers; promoted reusable patterns and UI consistency.
- Built and maintained internal component library/design-system approach to speed up delivery and reduce UI drift.

Key Outcomes

- 90+ Lighthouse (SSR/SEO + performance optimization).
- Legacy refactor: bundle -40%, engagement +22% on key flows.
- Migration strategy: Vue 2 → Vue 3 (Vuex → Pinia) with zero downtime.
- Quality: test coverage 15% → 70%, Cypress regression testing to reduce post-release issues.

Core Skills

Frontend: TypeScript, JavaScript, Vue 2/3, Nuxt 3/4, React, TailwindCSS, SCSS
Architecture: scalable UI systems, design systems/component libraries, migration planning, refactoring strategy
Performance/SEO: SSR, SEO optimization, Lighthouse, bundle optimization, lazy loading
Delivery/DevOps: CI/CD (GitHub Actions, GitLab CI), Docker, Cloudflare, Nginx, Coolify
Quality/Observability: code reviews, mentoring, Jest, Cypress, Sentry, SonarQube
Integrations: REST, WebSockets, Stripe, Firebase, TonConnect

Work History

- Lead Frontend Developer (Contract)** *SwitchCase, Singapore (Remote) | May 2024 - Current*
- Owned frontend architecture and delivery for a platform built from scratch on Nuxt 3 + TypeScript.
 - Established SSR/SEO and performance practices achieving 90+ Lighthouse in production.
 - Built CI/CD and release workflow (GitHub Actions + Coolify) improving delivery speed 20m → 3m.

- Drove quality via 50+ code reviews; mentored 2 engineers; created reusable UI patterns and a component library (~30% faster UI delivery).
- Implemented wallet connection (TonConnect) and security-minded onboarding flows.
- Aligned frontend roadmap and tech debt priorities with Product/QA; delivered predictable milestones.

Frontend Team Lead (Contract, Part-time) *Gentlyx, Remote | October 2024 - January 2025*

- Led legacy modernization strategy and execution, aligned with product priorities and delivery milestones.
- Delivered measurable results: bundle -40%, engagement +22%; improved stability and UX of key flows.
- Drove modernization initiatives (React + Vite + lazy loading) and performance-first standards.
- Improved release reliability via better QA collaboration, regression coverage, and review-driven quality.
- Integrated Stripe payment flows and improved checkout UX + reliability.
- Note: overlapping dates due to parallel part-time contracts.

Frontend Developer (Contract) *2UIT, (Uzbekistan, Remote) | February 2022 - May 2024*

- Owned delivery of complex data-heavy UI (100K+ rows) using virtual scrolling, lazy loading, and performance patterns.
- Designed and executed migration plan Vue 2 + Vuex → Vue 3 + Pinia with zero downtime.
- Improved load performance by 60%; shipped real-time charting for 2K+ daily users.

Frontend Developer (Contract) *Ittransition Group, Remote | October 2020 - February 2022*

- Increased test coverage 15% → 70%; stabilized legacy Vue components through refactoring.
- Built responsive UI components and implemented i18n for 5 locales.

Frontend Web Developer *Buzz.ai, Remote | March 2019 - October 2020*

- Built and maintained marketing and chatbot UI surfaces (50K+/month traffic).
- Migrated from jQuery → Vue, reducing frontend bugs by ~70%; added Cypress regression testing.

Education

Bachelor's Degree in Microprocessor Electronics Kostroma Polytechnic College, Russia | July 2016
